

# OTI AWARDED A CONTRACT WITH OMAN GAS COMPANY

Following the successful delivery of Major Emergency Management Training to 100 senior personnel from Oman Gas Company (OGC), Occupational Training Institute (OTI) in partnership with their associates SAFER Training has been awarded another contract. OTI and SAFER Training are currently providing technical services to review, benchmark to good practice and recommend improvements to the OGC Permit to Work System.

Occupational Training Institute L.L.C

The project involved initial field visits to audit and collect information so that recommendations for improvement could be provided to Senior Management. The scale of the initiative and service being provided has involved extensive consultation and communication with the OGC operations teams located throughout the various regions of Oman.

Recently, a workshop was held at the Crowne Plaza Hotel, with over 20 senior managers from OGC. The interactive presentations provided an opportunity to discuss the key findings from the PTW System reviews, and the recommendations prior to implementation of the changes and issue of new procedures.

OGC Senior Management Team congratulated OTI / SAFER Training for the quality of work produced, and the professionalism displayed throughout the process and commented that they look forward to working with OTI / SAFER Training on future projects.
